TRUE YOGA

IS NOT ABOUT THE SHAPE OF YOUR BODY,
BUT THE SHAPE OF YOUR LIFE.

YOGA IS NOT TO BE PERFORMED

YOGA IS TO BE LIVED

YOGA DOESN'T CARE ABOUT WHAT YOU HAVE BEEN
YOGA CARES ABOUT THE PERSON YOU ARE BECOMING
YOGA IS DESIGNED FOR A VAST AND PROFOUND PURPOSE
AND FOR IT TO BE TRULY CALLED YOGA,
ITS ESSENCE MUST BE EMBODIED.

Harmony

- An orderly or pleasing combination of elements in a whole
- Combining many parts to bring unity and wholeness (e.g., alignment, breath, balance)
- In *Yoga*, we find a balance between becoming strong, stable, and steady, while also creating inner joy and relaxation.

Why Balance Is So Important!

- A strong sense of **balance** promotes stillness in yoga poses, as well as stillness in your mind.
- As your **balance** improves, you'll also notice stronger muscles and improved flexibility.
- Achieve overall muscular control and increased body awareness.
- Improve focus, concentration, and memory

The Breath—Many Benefits

- Reduces adverse effects of stress on physical health.
- Calms agitated mind.
- Helps relieve symptoms of worry, anxiety, insomnia, depression, PTSD, etc.
- Can improve circulation, oxygenation, and endurance.

“Breath is the bridge which connects life to consciousness, which unites your body to your thoughts. Whenever your mind becomes scattered, use your breath as the means to take hold of your mind again.”

– THICH NHAT HANH

Mindfulness

Mindfulness means
paying attention
in a particular way;
on purpose,
in the present moment,
and nonjudgmentally.

~Jon Kabat-Zinn

Mindfulness

- Notice when you aren't present... and then bring yourself back.
- Even in activity, the mind can be still.
- Meditation: Taking your mind from the field of mental objects to the field of awareness itself.

Yoga and Relationships

- Compassion
- Control (fear, suffering, attachment)
- Patience
- Empathy

Compassion

Yoga Brings Compassion

- Note how emotions manifest themselves as physical sensations.
 - clenched jaw, hunched shoulders, collapsed chest (others?)
- You can welcome any part of your body/mind that needs compassionate attention.
- Focus on a steady breath, asking discomfort to take a backseat in your awareness.

Fostering Compassion for Yourself

- Recognize your own attributes worthy of compassion
- Become aware of and explore these personal qualities.
- Avoid judging yourself for not living up to a certain standard.
- Be kind to yourself and avoid being self critical.

- Listen and suspend all judgment.
- Respond to the emotion, not the actual words.
- Have your own support system; replenish your soul by receiving unconditional love from others.
- Put yourself in their situation mentally.
- Give yourself a break if you come up short; no one is perfect so have compassion for yourself.

The Practice of Loving-kindness

- To yourself
- To someone you find difficult
- To the broader community/the world

May you be well.
May you be happy.
May you be loved.
May you be at peace.
