

Cas & Dylan should be seen before it can be adequately evaluated. Some critics liked it quite a bit and many other critics did not like it at all. Here is one critic who is fairly positive.

Thank all of you for your participation in this class.

One final note. Two members of our class wanted the extra copy of the DVD containing “Scrap Dolls.” The one who did not win our “guess closest to the number” contest for the DVD asked if I could get another copy. I have found that the only place to get that DVD is from Spiritual Cinema Circle. I am a member of this organization and can get another copy of the DVD for the cost I originally quoted. However, I do not have the name or the address or phone of the person who wanted the copy. If you can email me or phone me and still want the DVD I can get it for you probably in about a week. Cost is the same as we had quoted for the first DVD. Simply write me an email at tnemswiler@mac.com or phone me at 217-390-5401 and I will order it for you. You can pick up the DVD at our house or I can probably mail it to you for a small fee. Thank you!
