

Baby its cold outside

A bunch of decent articles about the storms in Chicago Jan 14th

The story I emailed.

<https://www.autoevolution.com/news/you-shouldn-t-fear-being-stuck-in-an-ev-during-winter-227714.html>

And they don't have these problems in Norway

<https://www.nytimes.com/2024/01/17/business/tesla-charging-chicago-cold-weather.html>

OH. One more Norway

<https://insideevs.com/news/705338/norway-winter-ev-charging-no-trouble/>

Cold weather tips = As this article says Gas cars have these problems too

<https://www.zeta2030.org/insights/optimizing-electric-vehicles-for-cold-weather-driving>

One opinion on how it happened

<https://insideevs.com/news/705075/uber-lyft-rideshare-electrify-america-charging-ev-disaster-chicago/>

Gas car fail in the cold more than Electric (Oh - Norway again but they have the stats)

<https://electrek.co/2024/01/17/electric-vehicles-fail-lower-rate-than-gas-cars-extreme-cold/>

Five cold weather tips

<https://www.drive-electric.co.uk/guides/general/five-top-tips-to-improve-ev-range-in-winter/>

And one for those that like videos
